J. I. CASE, SELF-LEVELING, HIGH FOOT-LIFT SULKY PLOW

"THE PLOW A MAN CAN PULL."

The J. I. Case is a Foot Lift sulky in all that the term implies—a High Foot-Lift, and more—it is a Self-Leveling High Foot-Lift sulky. One stroke of the foot lever raises the plow from six inches in the ground to six inches above—out of the way of trash—and automatically levels the frame. It is not necessary to manipulate a special hand lever to level the frame each time you raise or lower the bottom. In the J. I. Case the Foot-Lift does it. Both hands are free to manage the team.
